SUMMARY

Business Intelligence Analyst with 3 years of experience and a Microsoft Certified: Power BI Data Analyst Associate (PL-300) certification. Designs and delivers Power BI dashboards and KPI reporting that improved reporting efficiency by 80% and increased dashboard adoption by 40%. Skilled in data modeling, DAX, Power Query, ETL and SQL (MySQL, PostgreSQL), with Excel, Python and R for analysis. Turns complex business data into clear, decision-ready reports for leadership, contributing to a 7% rise in quarterly revenue.

WORK EXPERIENCE

SDC APP **Jeddah, Saudi Arabia**
Data Analyst **December 2024 – Present**

- Designed and developed Power BI dashboards with KPIs aligned to business goals, improving reporting efficiency by 80%.
- Increased dashboard adoption by 40% across departments, strengthening a data-driven decision-making culture.
- Built data models, DAX measures and Power Query transformations to deliver accurate, automated monthly and quarterly reporting.
- Produced monthly and quarterly departmental reports with tailored recommendations, integrating data from UXCam and WebEngage, and tracked follow-up actions through to execution.
- Led monthly and quarterly review meetings with all department leads to present findings and align on strategic actions.
- Delivered performance analyses whose insights increased sales conversion by 5%, reduced customer churn by 3% and contributed to a 7% increase in quarterly revenue.
- Performed root-cause analysis on data fluctuations and trends, and handled ad-hoc data requests from leadership.

BM ENTERPRISE MANAGEMENT **Alexandria, Egypt**
Junior Data Analyst **August 2023 – August 2024**

- Led the transition to a paperless workflow by implementing an electronic business system, reducing paper costs by 30% and improving the speed, security and accuracy of records.
- Analyzed performance metrics and KPIs across 100+ insurance companies to identify the strongest candidates for future partnerships.

SECURITY METER **Remote**
Cyber Security Intern **August 2022 – October 2022**

- Completed hands-on training in VMware virtualization, creating and configuring virtual machines to build isolated lab environments for security practice.
- Gained practical experience with Linux, including command-line operations, file permissions, user management and basic system security.

EDUCATION

ALEXANDRIA UNIVERSITY **Alexandria, Egypt**
Bachelor of Data Science, Major in Computing and Data Science **August 2019 – June 2023**

SKILLS

- **Data Tools & Visualization:** Power BI (DAX, Power Query, Data Modeling, Star Schema, Row-Level Security, Power BI Service), Tableau, Excel (PivotTables, Power Query, XLOOKUP, Advanced Formulas, Conditional Formatting), PowerPoint, Dashboard Development, KPI Reporting, Data Storytelling.
- **Databases & Querying:** SQL, MySQL, PostgreSQL, Joins, Subqueries, CTEs, Window Functions, Query Optimization, Relational Database Design, Data Warehousing, ETL.

- **Programming & Analytics:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), R (ggplot2, dplyr), Jupyter Notebook, Git & GitHub, Web Scraping.
- **Data Analysis Techniques:** Data Cleaning & Transformation, Data Validation & Quality Checks, Exploratory Data Analysis (EDA), Trend Analysis, Funnel & Conversion Analysis, Churn & Retention Analysis, Customer Segmentation, Root-Cause Analysis, Ad-hoc Analysis.
- **Statistical & Machine Learning:** Statistical Analysis, Hypothesis Testing, Predictive Analytics, Regression, Classification, Clustering, Convolutional Neural Networks (CNNs), Computer Vision.
- **Product Analytics Tools:** UXCam, WebEngage, User Behavior Analytics, Customer Engagement Analytics.
- **Business & Soft Skills:** Business Intelligence, Requirements Gathering, Stakeholder Management, Presenting Insights to Leadership, Cross-functional Collaboration, Process Improvement, Digital Transformation, Problem-Solving, Attention to Detail.
- **IT & Security:** Linux (Command Line), VMware (Virtualization), Cybersecurity Fundamentals.
- **Languages:** Arabic (Native), English (Professional).

PROJECTS

EGYPTIAN SIGN LANGUAGE RECOGNITION (GRADUATION PROJECT) | *Python, TensorFlow, CNN, LSTM, MediaPipe*

- Built a real-time system that translates Egyptian Sign Language into Arabic text for railway communication: a CNN recognizing 32 Arabic letters (90.5% test accuracy on 54K images) and an LSTM recognizing 11 station words from MediaPipe keypoints (up to 92.7%), with a live webcam GUI. github.com/saraismailali/Egyptian-Sign-Language-Recognition-Using-Machine-Learning

SALES & PROFIT PERFORMANCE DASHBOARD | *Power BI, Power Query, DAX*

- Built a 4-page dashboard combining Excel, CSV, PDF and four yearly sales files (15K+ transactions) into a star schema; tracked revenue against targets, YoY growth and margin, and found that discounts rising to about 39% in 2023 pushed sales below cost. github.com/saraismailali/Power-BI-SALES-PROFIT-PERFORMANCE-DASHBOARD

HOTEL REVENUE ANALYSIS | *SQL Server (SSMS), T-SQL, Power BI*

- Loaded three years of hotel booking data from Excel into SQL Server, combined and joined the tables in T-SQL, and connected Power BI to answer stakeholder questions on revenue growth, hotel type, parking demand and seasonality. github.com/saraismailali/Hotel-data-analysis-SQL-power-bi-

EMPLOYEE DATABASE ANALYSIS | *SQL (MySQL), Tableau*

- Analyzed a multi-table employee database in MySQL using stored procedures, user-defined functions, CTEs, window functions and joins, then fed the queries into Tableau dashboards comparing male and female hiring, managers and salaries by department. github.com/saraismailali/SQL-employee-data-analysis

ADVENTUREWORKS BUSINESS INTELLIGENCE REPORT | *Power BI, DAX, Data Modeling*

- Built a 5-page report on a star-schema model with 35+ DAX measures, including time intelligence (YTD, rolling 10/90-day), KPIs against targets, a what-if price parameter, bookmarks and custom tooltips. github.com/saraismailali/-Adventure-Works-Power-BI-Project

EXCEL SALES, PROFIT & QUANTITY DASHBOARDS | *Excel, Power Query, Power Pivot*

- Built interactive Excel dashboards using Power Query (including PDF extraction), the Data Model and 30+ PivotTables and PivotCharts with slicers and a timeline. github.com/saraismailali/Excel-Sales-Profit-Quantity-Dashboards
